The Hiber-nians and members of the Father Mathew total abstinence and benevolent association also presented a fine appearance, their regalia sparkling brightly and giving an air of martial pomp to the procession, which was fol-lowed by a large crowd, and viewed with adniration by the numerous spectators along the route of the procession. Upon reaching ST. PATRICK'S CHURCH,

at the corner of DeSoto and Linden streets, the procession made a counter-march. There was a large crowd of people in front of the church, and all seemed to manifest unusual interest. There is something magnetic in the celebration of St. Patrick's Day, and this was exemplified by the very general and in-tense interest among the Irish yesterday. About three o'clock in the morning the cry of "fire" was heard and a volume of themes however, is an exception, and is one of the brightest stars in the true faith of Christ. of "fire" was heard, and a volume of flames immediately seen under the pantry, persed, and as the societies filed out of the church, Mrs. Moyston sang The Harp of evident that the

Thompson, of or subjugation. Realizing this fact, Mr. Dare called through the pipe to the pilot, Mr. Elisha Evans, and said to him: "Land her quick; she's on fire." Mr. Evans stood to his post like a true man, and headed the the Avalanche, regretting his inability to be present and participate in the pleasures of the occasion. Among the gentlemen who made speeches in response to the calls of the knights were Mr. J. M. Keating, of the AP-PEAL, and Mr. Hamilton. The entire affair boat for the left bank. Mr. Dare remained was very much enjoyed, and reflected great steam, the engineer and the rulot acting with great discretion, although aware of the fate the boat and cargo were about to undergo.

These men thought of the lives of the pas-sengers, especially of the ladies, whose SCREAMS OF TERROR could hear above the roar of the flames and the rush of the steam. In less than two minutes the prow of the Governor Garland struck the shore, which was high a nd steep.
As the steamer touched the bluff-like bank
fifteen or twenty persons, most of whom were
deck-hands, jumped ashore. Under the direction of Captain Ed Knowland and the
mate, the roustabouts seized a cable and carried it ashere. As the men were tuggin of the line up the steep bank one of them cried out, "She'll blow up." The effect of this was to terrify the roustabouts, who immedia tely dropped the line and fled into the w k ds. The steamer struck the bank with so intich force that she bounded out, and was so on adrift with the current. In fact, by the time

she touched the shore THE FLAMES HAD SPREAD so rapidly that the engineer had to leave his throttle-valve and the pilot his wheel. However, the engineer shut off the steam as soon shore and rebounded into the stream. ever, the engineer shut off the steam as soon as the boat struck the bank, and Mr. Evans. years, are as enthusiastic as ever. Neither the pilot, did not leave the wheel till he had set it, and was driven out by the flames. Th latter made a narrow escape, and, like Mr Dave, did his duty well and only as brave men would do under such trying corcum-stances. Immediately below the point where the boat struck the shore was a Jorush-heap. As the boat rebounded from the bank her bow struck this heap, which sent her out into the middle of the river. By this time the flames burnt the lever ropes in two, and this permitted the steam to rush into the valves. The wheel, of course, was set in motion, and the boat moved diagonally across the river. Although it had not been four minutes since the fire began, the strong current and stiff breeze fanned the flarnes,

which, by this time, enveloped almost the entire boat. The situation of the passenger was appaling. As the fire spread, the people rushed forward and were CROWDED TOGETHER on the forecastle, not knowing what would be their fate. Fortunately the cotton, which was piled up in seven tiers, for a while screened the affrighted people from the devouring flames. The picture now was one of indescribable terror. A hundred human-beings, men, women and children, were all huddled together in a narrow space. Above and almost around them hissed the dreadful flames, which rose up to the very top of the chim neys. Through the heavy smoke could be dimly traced the outlines of the passengers, between whom and the hot flames were only a few bales of cotton. But it appeared that the bank was far off

and the unguided boat of fire seemed to be sporting with life and on a mission of death. The smoke rushed upward in great, dark volumes, while the flames lapped over and around the tier of cotton bales as if an ious to seize upon the helpless victims who were crowded together in the forecastle. At this with a crash, scattering the fire-brands and flames in every direction. The fire had now nade such headway that the flames burst through the pile of cotton-bales, and the heat was so intense that it scorched many of the was so intense that it scorched many of the edging receipt of your esteemed favor of this passengers, who, crowded still nearer the date, together with the accompanying ad-

AN AFFECTING INCIDENT.

Captain Nowland's conduct was heroic.

Finding it impossible to rescue his wife and two children, he was compelled to forsake either the former or the latter. He had no time to hesitate, for the flames were already scorching the passengers. Captain Nowland kissed his l''tle children farewell, and seizing his wife plunged into the water. He looked back, but the little children he could not see, for his eyes were filled with tears, such as only a father or mother can know the meaning of. Great indeed was the joy of the mother and father when a few minutes afterward they learned that both of their little children had been rescued and rapidly carried to shore. A deck hand, named Billy suples, whose home is in Memphis, witnessed the sad farewell of

Captain Nowland and his little children-Seizing both of the children in his strong arms, the brave man leaped into the wat and carried them safely to the shore. It an act which will not be forgotten. Had not been for this humble man two lives had been given to the flames and left an acting woid in the hearts of father and mother.

Mr. James Thompson, chief clerk of the steamer, was one of the first to hear the cry of fire, and hastened below, with the hope of extinguishing it. He was unable to do this, and found it impossible to return to the office in time to rescue the books, papers, and money, which were destroyed. In the safe was three thousand dollars. With the alarm the wildest confusion ensued, and the passengers rushed forward in terror, fully realizing their condition. In a few seconds the flames had spread to an alarming extent, and it was evident that the A NIGHT IN THE SWAMPS.

The origin of the fire is not known, and perhaps never will be. There were also about ten or a dozen deck passengers, most of the latter getting off when the boat first struck the shore. Mr. Cannon says he knows of but one man missing, Mr. W. D. Brent, a merchant of Mud Lake, Arkansas. As to the re-port that three deck passengers were lost, he knows nothing about it. Mr. Brent was
